CYTOLOGY REPORT

Date of Receipt: 15/10/2018

Cyto No: _____

Name: _____

Unit: _____

Age: _____

Reg No: _____

Opd/Ward: _____

Income Group: _____

Paid Receipt No: _____

Diagnosis _____

Gynaecologic exfoliative cytology/ cervical pap smears/ vaginal smears

Smear Site : 1. Endocervix 2. Ectocervix 3. Posterior fornix 4. Lateral Vaginal wall
5. Vaginal vault 6. Labia 7. Vulva 8. Endometrial Aspiration/ Brushing

1. Quality of staining : a. Good b. Satisfactory c. Unsatisfactory {give reasons}
(staining quality) _____

2. Sample Adequacy : a. Adequate b. Inadequate c. Limited by
1. Absence of endocervical cells 2. Absence of ectocervical cells

3. Benign Cellular changes :

1. Infection associated a. Trichomonas vaginalis b. Cocci bacilli c. Candida
d. Actinomyces e. Herpes simplex f. Any other (specify) _____

2. Reactive changes associated with a. Inflammation b. Atrophy c. Radiation
d. IUCD e. Repair f. Any other (specify) _____

4. Epithelial cell Abnormality (Squamous cells)

a. ASCUS - (Atypical squamous cells of undetermined significance) NA

b. LSIL - Low grade squamous intraepithelial lesion (mild dysplasia/ CIN-I)
/HPV associated changes _____

c. HSIL - (High grade squamous intraepithelial lesion) (Moderate dysplasia (CIN-II))
/Severe dysplasia (CIN-III) and Ca in situ _____

d. Squamous cell carcinoma: invasive NA

5. Epithelial cell Abnormality (Glandular cells)

a. Endometrial cells, cytologically benign

b. AGUS - Atypical glandular cells of undetermined significance

c. Adenocarcinoma

6. Remarks (if any) _____ is a ABNORMAL WSI

Date: _____
